

Dedicated to a better Brisbane

Dear Resident

RE: Legacy Way – Handover to Transcity

You would have received correspondence from Council about Legacy Way (formerly Northern Link), the 4.6km road tunnel connecting the Centenary Motorway at Toowong with the Inner City Bypass at Kelvin Grove.

Transcity, an integrated team comprising BMD Constructions, Italian company Ghella and Spanish company Acciona, was appointed as the successful contractor to design, construct, operate and maintain Legacy Way in September 2010.

Council's contract with Transcity has now commenced. This means Transcity is preparing to start construction and will take responsibility for liaising with residents, businesses, and any community likely to be impacted, about upcoming construction activities.

The best contacts for information about the construction of Legacy Way are now:

- Transcity 24 hour community information line - **1800 778 772** (freecall)
- Transcity information email – info@transcityjv.com.au
- Transcity website – www.transcityjv.com.au
- Legacy Way Temporary Visitor Centre – 80Jephson St, Toowong

Council will continue to be closely involved with Legacy Way, working with Transcity to ensure the best outcomes for Council and its customers.

If you would like to contact Council for general information about Legacy Way please call Council's Legacy Way enquiry line 1800 692 333 or email info@northernlinkeis.com.au.

Yours sincerely,

PETER LIVESEY
Project Director
Legacy Way
